

Map Activity 1

Migration and Centers of Agriculture

A. Human Dispersal to 10,000 Years Ago

1. List the continents in the order that they were occupied by early humans.
2. Identify the two most important (and obvious) “land bridges” which connected continental regions during the Pleistocene.

B. Centers of Plant and Animal Domestication

3. When did the Agricultural Revolution begin to occur?
4. List the crops domesticated in the region that we call the “Middle East” today?
6. According to the caption, what types of lands had pastoralism and hunting?
7. List three places in the world where foraging predominated (be specific).
