

**Unit 5: The Modern Era, 1750-1914**  
**Mankind: The Story of All of Us- REVOLUTIONS**

**Revolutions:** The thirst for freedom, equality and political liberty drives the Age of Revolutions. Mechanization of cloth and harnessing of coal fuels the Industrial Revolution. Cholera and other diseases devastate many nations, but mankind responds by developing clean water systems and new medical procedures. British control of the opium trade in China proves just how connected the world has become. Civil War rages in the United States. The struggle for equal rights and citizenship continues in places throughout the globe. *Keys Include: Coal, Railroads, Modern Medicine, Factory*

The American Revolution and its Influence	The Industrial Revolution	Railroads, Speed, and Travel

Urbanization and Disease	British Empire, China, and Opium	Industrialization and the Civil War

**Conclusion:** Evaluate the impacts of the Industrial Revolution. How did it change the nature of science, economics, travel, society, and war? Use at least THREE examples from above in your answer. Write in paragraph form on a separate sheet of paper.
